A downloadable/printable version of this checklist is available at yhcounty.ca/wintertodo

Flooding of County Rinks

The County's focus in December is to get the outdoor rinks in the Hamlets flooded and operating. The Bear Lake Loop is completed in January.

Flooding requires at least 2 weeks of consistent low temperatures and about a week of preparation and flooding per rink. Our volunteer base fluctuates year to year so our limited staff travel to each hamlet for rink start-up.

Keep an eye on Yellowhead County's Parks and Recreation Facebook page for more information on when the rinks and loop will be available!
